(b) An Indemnified Person shall be fully protected in relying in good faith upon the records of the Trust and upon such information, advice, opinions, reports or statements presented to the Trustee by any Person as to matters the Indemnified Person reasonably believes are within such other Person's professional or expert competence and who has been selected with reasonable care by or on behalf of the Trust including by the Trustee, including information, advice, opinions, reports or statements as to the value and amount of the assets, liabilities, profits, losses, or any other facts pertinent to the existence and amount of assets from which distributions to the Beneficiary(ies) might properly be paid.

SECTION 5.2 Fiduciary Duty.

(a) To the extent that an Indemnified Person has legal duties (including fiduciary duties) and liabilities relating thereto to the Trust or to the Settlor or Beneficiary(ies), an Indemnified Person acting under this Agreement shall not be liable to the Trust, the Settlor or to the Beneficiary(ies) for such Indemnified Person's good faith reliance on the provisions of this Agreement. The provisions of this Agreement are agreed by the parties hereto to replace such other duties and liabilities whether existing at law or in equity of such Indemnified Person. The Trustee shall have the right, but not the obligation, to request that the Settlor, from time to time, complete, execute and submit (through the Hover Platform) Recommendations (in the form as provided therein) prior to Trustee taking any material action on behalf of the Trust, whether or not has regard to such Recommendations. Notwithstanding any other provision of this Agreement, the Trustee shall neither be required to diversify the Assets comprised in the Trust Property nor be liable for any consequences thereof.

(b) To the fullest extent permitted by applicable law, whenever in this Agreement an Indemnified Person is permitted or required to make a decision in such Indemnified Person's "good faith" or another express standard, the Indemnified Person shall act under such express standard and shall not be subject to any other or different standard imposed by this Agreement or by applicable law.

SECTION 5.3 Indemnification of Trustee. Without prejudice to any separate fee and indemnification agreement executed by the Trustee in connection with the performance of its duties and obligations under the Transaction Documents, the Trust and the Settlor, on a joint and several basis, (in each and every capacity in which the Trustee serves hereunder) shall indemnify, protect, save and hold the Indemnified Person harmless against, any and all loss, liability, obligation, damage, claim, penalty, tax (excluding any taxes on the Trustee on, or measured by, any compensation received by the Trustee) or expense of any kind or nature whatsoever arising out of or in connection with the creation, acceptance, operation or administration of the Trust, including the costs and expenses of defending itself against any claim or liability in connection with the exercise or performance of any of its rights, powers or duties hereunder (each of the foregoing, a "Claim"); provided, however, that the Trust and the Settlor shall not be required to indemnify, protect, save and hold the Trustee harmless from any Claim (or portion thereof) resulting from any gross negligence, willful misconduct or bad faith on the Trustee's part. The indemnity contained in this paragraph shall survive the termination of this Agreement and the resignation or removal of the Trustee.

SECTION 5.4 Waiver of Conflicts. It is hereby acknowledged that the Person serving as Trustee of the Trust, or an affiliate of such Person (including but not limited to a trustee of the Trustee), may also serve in any one or more of capacities under the Transaction Documents. The Settlor hereby acknowledges the potential conflict of interests between Trustee's actions as Trustee and Trustee's actions in such other capacities, and expressly consent to Trustee serving in any or all such capacities, and to the fullest extent permitted by law, waive any potential conflict of interests Trustee may have as a result of serving in such capacities. When taking any action in any of the above capacities, Trustee shall be deemed to be acting only in such other capacity (i.e., other than as a trustee of the Trust), and shall not be deemed to be acting in its capacity as Trustee hereunder. Any limitation placed upon Trustee in any of the above capacities shall not be a limitation upon Trustee's ability to take any such act in any other capacity, unless such activities in such other capacity are also so limited.

SECTION 5.5 Outside Businesses. The Settlor and any Indemnified Person may engage in or possess an interest in other business ventures of any nature or description, independently or with others, similar or dissimilar to the business of the Trust, and the Trustee and the Beneficiary(ies) shall have no rights by virtue of this Agreement in and to such independent ventures or the income or profits derived therefrom and the pursuit of any such venture, even if competitive with the business of the Trust, shall not be deemed wrongful or improper. Neither the Settlor nor any Indemnified Person shall be obligated to present any particular investment or other opportunity to the Trust even if such opportunity is of a character that, if presented to the Trust, could be taken by the Trust, and the Settlor and any Indemnified Person shall have the right to take for his/her/its own account (individually or as a partner or fiduciary) or to recommend to others any such particular investment or opportunity. Any Indemnified Person may engage or be interested in any financial or other transaction with the Settlor or the Beneficiary(ies) or may act as depository for, trustee or agent for or may act on any committee or body of holders of, any obligations of the Beneficiary(ies).

ARTICLE VI OTHER PROVISIONS

SECTION 6.1 Amendment.

(a) The Settlor expressly acknowledges that the Settlor shall not have the right or power, whether alone or in conjunction with others, and in whatever capacity, to alter, amend, modify, revoke or terminate the Agreement or any provisions hereunder in whole or in part, save and except to change the designation of the Beneficiary(ies) as provided in Section 3.1, to remove the Trustee as provided in Section 4.5(b), to amend this Agreement (in conjunction with the Trustee) as provided in Section 6.1(b) and to dissolve the Trust as provided in Section 6.2(a)(i).

(b) Save as otherwise provided in this Agreement, this Agreement may be modified, amended or restated by, and only by, a written instrument executed

by the Trustee and the Settlor. Any such modification or amendment shall thereafter be effective without any further action.

SECTION 6.2 Termination, Revocation and Dissolution of the Trust.

(a) The Trust shall terminate and dissolved and be of no further force or effect:

(i) Upon the election by the Settlor to revoke the Trust, executed and delivered to the Trustee pursuant to the protocol available through www.HoverTrust.ai/Revocation;

(iii) upon a final, binding adjudication by the Eastern Caribbean Supreme Court (Anguilla Circuit).

(b) As soon as practicable after the occurrence of any event set forth in Section 6.2(a)(i), the Trustee shall distribute all of the Trust's assets, after satisfaction of (or reservation of assets for) the Trust's debts and obligations, to the Settlor. As soon as practicable after the occurrence of any event set forth in Section 6.2(a)(iii), the Trustee shall distribute all of the Trust's assets, after satisfaction of (or reservation of assets for) the Trust's debts and obligations, to the Beneficiary(ies) in accordance with their Beneficiary Percentage Interest.

SECTION 6.3 Headings. Headings contained in this Agreement are inserted for convenience of reference and do not affect the interpretation of this Agreement or any provision hereof.

SECTION 6.4 Successors and Assigns. Whenever in this Agreement any of the parties hereto is named or referred to, the personal representatives, heirs, successors and assigns of such party shall be deemed to be included, and all covenants and agreements in this Agreement by the Settlor and the Trustee shall bind and inure to the benefit of their respective personal representatives, heirs, successors and assigns, whether or not so expressed.

SECTION 6.5 Partial Enforceability. If any provision of this Agreement, or the application of such provision to any Person or circumstance, shall be held invalid, the remainder of this Agreement, or the application of such provision to Persons or circumstances other than those to which it is held invalid, shall not be affected thereby.

SECTION 6.6 Digital Signatures and Counterparts. This Agreement may be executed by digital signature provided through the Hover Platform, in counterparts, each of which will be considered an original, but all of which together will constitute the same instrument. Without limiting the foregoing, a facsimile copy of this Agreement or copy of this Agreement sent via electronic mail in portable document format ("PDF") will be considered an original. The parties hereto may execute this Agreement in any number of duplicate originals, including via facsimile signature page or signature on a PDF page sent via electronic mail, and in multiple counterparts, each of which constitutes an original, and all of which, collectively, constitute only one agreement. The signatures of all of the parties hereto need not appear on the same counterpart, and delivery of an executed counterpart signature page by facsimile or by electronic mail of a signature page in PDF is as effective as executing and delivering this Agreement in the presence of the other parties hereto. Any party hereto delivering an executed counterpart of this Agreement by facsimile or by electronic mail of a signature page in PDF will, upon request of the other parties hereto, also deliver a counterpart of this Agreement executed in wet ink as soon as reasonably practicable following transmittal by facsimile or by electronic mail of a signature page in PDF, but the failure to do so does not affect the validity, enforceability or binding effect of this Agreement.

SECTION 6.7 Arbitration; Consent to Jurisdiction and Service of Process. Each of the parties hereto (each an "Arbitrating Party") and each Beneficiary hereby consents and agrees that any claims, questions or controversies arising out of or related to in any manner whatsoever this Agreement (including, but not limited to, any challenge by the Settlor, the Settlor's spouse (if any) or the Settlor's estate or subrogees (each, a "Settlor Party") against the Trust, the

Beneficiary(ies), or any other party interested in or related in any way to the transactions arising under or related to in any manner whatsoever this Agreement (each, an "Interested Third Party"), notwithstanding the fact such parties are not signatories hereto) (a "Dispute") shall be submitted to arbitration conducted pursuant to the Arbitration Act (c. A105) and under the London Court of International Arbitration (LCIA) Rules in effect at the time of the arbitration, except as they may be modified herein or by mutual agreement of the parties to such arbitration. The number of arbitrators shall be one, who shall be selected by the parties to the arbitration. The seat, or legal place, of arbitration, and the situs of the arbitration, shall be ANGUILLA. The language to be used in the arbitral proceedings shall be English. Any Settlor Party or any Interested Third Party is hereby authorized to invoke this arbitration provision, and any judgment with respect to any award rendered pursuant to this arbitration provision may be enforced in any court of competent jurisdiction. The parties understand that claims submitted to arbitration are not heard by a jury and are not subject to the rules governing the courts. The parties further agree that no claim may be brought as a class action, and that no party has the right to act, nor attempt to act, as a class representative or participate as a member of a class of claimants with respect to any claim related to or arising out of this Agreement. To the extent that this arbitration provision is held unenforceable by a court of competent jurisdiction over this Trust and this matter, each party hereto (a) irrevocably submits to the exclusive jurisdiction of Eastern Caribbean Supreme Court (Anguilla Circuit) in respect of any action or proceeding arising out of or related to in any manner whatsoever this Agreement, (b) expressly submits and consents in advance to such jurisdiction in any action or suit commenced in any such tribunal, and hereby waives any objection such party may have based upon lack of personal jurisdiction, improper venue or forum non conveniens, (c) agrees that this Agreement and any claims, questions or controversies arising out of or related to in any manner whatsoever this Agreement (and all documents arising out of or related to in any manner this Agreement or the transactions contemplated hereunder) shall in all respects be governed by and construed in accordance with the Laws of Anguilla and the Act (in each case without reference to conflicts of laws provisions), (d) hereby waives personal service of the claim, summons, complaint and other process issued in any such action or action and agrees that service of such claim, summons, complaint and other process may be made by registered or certified mail addressed to him/her/it at his/her/its notice address in accordance with Section 6.8 and that service so made shall be deemed completed upon the earlier of such party's actual receipt thereof or three (3) days after physical delivery thereof, and (e) HEREBY WAIVES THE RIGHT THAT HE/SHE/IT MAY HAVE TO A TRIAL BY JURY ON ANY CLAIM, COUNTERCLAIM, SETOFF, DEMAND, ACTION OR CAUSE OF ACTION (I) ARISING OUT OF OR IN ANY WAY RELATED TO THIS AGREEMENT, OR (II) IN ANY WAY IN CONNECTION WITH OR PERTAINING OR RELATED TO OR INCIDENTAL TO ANY DEALINGS OF THE PARTIES TO THIS AGREEMENT IN CONNECTION WITH THIS AGREEMENT OR THE EXERCISE OF ANY PARTY'S RIGHTS AND REMEDIES UNDER THIS AGREEMENT OR OTHERWISE, OR THE CONDUCT OR THE RELATIONSHIP OF THE PARTIES HERETO, IN ALL OF THE FOREGOING CASES WHETHER NOW EXISTING OR HEREAFTER ARISING AND WHETHER SOUNDING IN CONTRACT, TORT OR OTHERWISE. Each of the parties hereto hereby agrees and acknowledges that this Section 6.7 is intended to encompass any Dispute between any Settlor Party, any Interested Third Party and any Arbitrating Party. Each of the parties hereto hereby represents and warrants that such party has had the opportunity to consult with legal counsel with respect to the terms of this Agreement, including this Section 6.7. The parties hereto expressly agree that the arbitration provisions contained in this Section 6.7 shall not apply to the Trustee in respect of the Trustee's rights, duties, protections and immunities hereunder.

SECTION 6.8 Notices.

(a) Any notice required or permitted to be given to the Settlor shall be deemed to have been duly given if notified to the Settlor in the manner prescribed by the Hover Platform, from time to time.

(c) Any notice required or permitted to be given to the Beneficiary(ies) shall be deemed to have been duly given if such notice is delivered to them by email (or other notice) to the address/contact information as shown in the Trust's books and records or to such other contact address as the Beneficiary(ies) shall request by notice to the Trustee and the Settlor as provided in the manner prescribed by the Hover Platform, from time to time.

SECTION 6.9 Situs. The situs and place of administration of the Trust shall be Anguilla. It is acknowledged that the situs and place of administration of the Trustee is Anguilla and not located within any other jurisdiction.

SECTION 6.10 Beneficiary Rights Forfeiture. If any one or more Beneficiaries institutes or participates in any litigation, arbitration, or any other claims against the Trust other than in the required arbitration provided in Section 6.7, then the Beneficiary Percentage Interest for such Beneficiary shall be forfeited in their entirety. The Trustee is hereby authorized and directed to execute an amendment to this Agreement to remove the applicable Beneficiary(ies), which action shall be binding on all parties hereto.

SECTION 6.11 Governing Law. IT IS HEREBY AGREED BY ALL PARTIES HERETO THAT THIS AGREEMENT AND THE TRUST WILL IN ALL RESPECTS BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF ANGUILLA.

SECTION 6.12 Savings Clause. Notwithstanding any provision of this Agreement to the contrary, all property of this Trust not otherwise vested under any provision hereof at the expiration of twenty-one (21) years after the death

of the Settlor, shall vest in and be distributed to the Beneficiary(ies) then entitled to the distributions from this Trust. The purpose of this provision is to prevent any possible violation of the rule against perpetuities, and this provision should be so construed.

SECTION 6.13 ANTI-MONEY LAUNDERING. In addition to requirement for compliance with the Anti-Money Laundering and Terrorist Financing Regulations (c. P98/P98-1), the Trustee and the Trust desire to use reasonable efforts to comply with the laws, rules, regulations and executive orders in effect from time to time applicable to banking institutions, including those relating to the funding of terrorist activities and money laundering (collectively, "Applicable Regulations"). To do so, the Trustee may be required to obtain, verify and record certain information relating to individuals and entities which maintain a business or other relationship with the Trustee. Accordingly, each of Person agrees to provide to the Trustee, upon its request from time to time, such identifying information and documentation as may be necessary in order to enable the Trustee to comply with such Applicable Regulations. APPENDIX B

RISK FACTORS IN DEALING WITH DIGITAL ASSETS

The following risk factors apply in dealing with Digital Assets. The following does not purport to be a summary of all the risks associated with dealing with Digital Assets.

- (a) **Blockchain Industry Risks:** The regulatory regime governing the blockchain technologies, cryptocurrencies, tokens and token sales is uncertain, and new regulations or policies may materially adversely affect the development of Digital Assets and the utility and, if applicable, value of such Digital Assets. Regulation of Digital Assets and Digital Asset sales, cryptocurrencies, blockchain technologies, and, if applicable, cryptocurrency exchanges is currently undeveloped and likely to rapidly evolve, varies significantly among international and local jurisdictions and is subject to significant uncertainty. Various legislative and executive bodies in the in other jurisdictions may in the future, enact laws, regulations, guidance, or other actions, which may severely impact the development and growth of Digital Assets and the adoption, utility and, if applicable, value of such Digital Assets. Failure by the promoter of a particular Digital Asset or related platform to comply with any laws, rules and regulations, some of which may not exist yet or are subject to interpretation and may be subject to change, could result in a variety of adverse consequences, including civil penalties and fines to such persons and impact the utility or value of the underlying Digital Asset. As blockchain and blockchain related networks and assets have grown in popularity and in market size, international regulatory agencies have begun to take interest in, and in some cases regulate, their use and operation. In the case of virtual currencies, some jurisdictions have created new regulatory frameworks. Other jurisdictions have published guidance on how their existing regulatory regimes apply to virtual currencies and which features are capable of constituting a blockchain token as a virtual currency. Some jurisdictions have amended their statutes to include virtual currencies in the existing licensing regimes. The regulation of non-currency use of blockchain tokens and/or assets in certain jurisdictions is also uncertain. To the extent that a domestic government or quasi-governmental agency exerts regulatory authority over a blockchain or blockchain based network, token or asset, the underlying Digital Asset(s) may be materially and adversely affected. Blockchain and blockchain based networks also face an uncertain regulatory landscape in many foreign jurisdictions such as the United States of America, European Union, China and Russia. Various foreign jurisdictions may, in the near future enact, or may have already enacted, laws, regulations or directives that affect some or all Digital Assets. Such laws, regulations or directives may directly and negatively impact the operation of Digital Assets, related platforms and/or the participants thereon. The effect of any future regulatory changes is impossible to predict, but such changes could be substantial and materially adverse to the development and growth of Digital Asset platforms and the adoption, utility and, if applicable, value of the respective Digital Asset. New or changing laws and regulations, or interpretations of existing laws and regulations, in certain jurisdictions, may materially and adversely impact the liquidity, value or price of certain Digital Assets, and the utility, structure, rights and/or transferability of such Digital Assets.

Transfers of, and transactions involving, Digital Assets may be irreversible, and, accordingly, losses due to fraudulent or accidental transactions may not be recoverable. In the event that a Digital Asset becomes tradable on any token exchange or pursuant to peer-to-peer transfers, transactions in such Digital Assets may be irreversible, and, accordingly, a purchaser of such Digital Asset may lose all of his/her Digital Assets in a variety of circumstances, including in connection with fraudulent or accidental transactions, technology failures or cyber-security breaches. If applicable, real-time settlement would further increase the risk that correction of transfer or trading errors may be impossible and losses due to fraudulent or accidental transactions may not be recoverable.

Purchasers of Digital Assets may have no control over the operations of the platforms on which such Digital Assets are utilized. Purchasers of such Digital Asset may not be entitled, to vote or be deemed the holder of any interest of such platforms for any purpose, nor may anything be construed to confer on any such purchaser any of the rights of a member, beneficiary or shareholder of such platform or any right to vote for the election of managers or directors or upon any matter submitted to members, beneficiaries or shareholders at any meeting thereof, or to give or withhold consent to any corporate action or to receive notice of meetings, or to receive subscription rights or otherwise, with respect to the operations of such platform.

Promoters of certain Digital Assets may not support or otherwise facilitate any secondary trading or external valuation of such Digital Asset, which could therefore create illiquidity risk with respect to such Digital Assets. Even if secondary trading of such Digital Assets is facilitated by third party exchanges, such exchanges may be relatively new and subject to little or no regulatory oversight, making them more susceptible to fraud or manipulation. Furthermore, to the extent that third parties do ascribe an external exchange value to a Digital Asset (e.g., as denominated in a digital or fiat currency), such value may be extremely volatile and diminish to zero.

The management of Digital Assets is onerous and may require unique and complex measures for securing the wallet, vault or other storage mechanism for certain Digital Assets, including any requisite private key(s) or other credentials necessary to access such storage mechanism(s). If such private key(s) or other access credentials are lost, whether by the original holder of the keys/credential or the operator of the wallet/storage mechanism, the holder of such Digital Assets may lose access to his/her Digital Assets and such Digital Assets may be unrecoverable.

- (b) **General Business Risks:** Blockchain technologies and token-based blockchain platforms, systems or networks are largely unproven business models. While many of these new types of blockchain projects have raised substantial funds from the public and privately over the past few years, it has become apparent during the last several years that public pressures, purchaser pressures, regulatory pressures, project failures and other unknown causes have led to a very substantial decrease in most if not all blockchain projects that allocate tokens for sale to the public. It is unknown at this time whether the perceived or actual utility or value of these blockchain projects will ever increase or the projects will launch and operate successfully or profitably. These risks are generally outside the control of the promoters of

the blockchain tokens to be used in such projects, and its management, and could result in a complete failure of the objectives of projects, which would result in a loss of funds and/or loss of utility and, if applicable, value of the relevant Digital Asset.

The management of many blockchain projects have no, or limited, experience in developing, promoting and supporting or launching and operating such project. This lack of specific experience makes a purchase of Digital Assets related to such projects a speculative and high-risk transaction.

- (c) **Additional Platform Risks:** Certain blockchain projects have no minimum cap that must be realized through the sale of a particular Digital Assets, before it can accept, access and use the proceeds of such sale. Purchasers may not know at the time of purchase how much funds are being or have been realized by such project from the sale of the relevant Digital Asset, nor whether the funds being realized or actually realized will be sufficient for the project to carry out its objectives and purposes, in whole or in part. Additionally, the utility of the relevant Digital Asset may depend, to a large degree, on the number and engagement of participants in the platform being developed. In the event of insufficient engagement by participants in the such platforms or project, the utility of relevant Digital Asset may be, diminished or lost and consequently the funds used to purchase such Digital Assets may be lost.

Blockchain projects/platforms operate in the highly regulated blockchain industry. While the promoters of such project may intend to structure their technology and to operate in accordance with all applicable laws, existing and new laws could materially impact their ability to effectively execute the objectives of the promoters or prohibit certain features from operating on the relevant project/platform. If any of these events occur, the promoters may incur substantial legal costs in defending themselves, or could even be prohibited from developing, maintaining or otherwise operating the project platform, as well as such promoters may be sanctioned or otherwise negatively impacted. In any such events, purchasers may lose the utility of their related Digital Assets and, if applicable, the value of some or all of their purchase funds.

Certain blockchain projects/platform may not reach self-sustainability. There may not be any or any sufficient demand for such products or services offered by such project/platform from participants. In the event that such projects/platform fails to reach profitability and fails to generate enough capital to further continuing to development, maintenance and/or operation of the platform, the project/platform may become insufficiently solvent or insolvent and, in such circumstances, the utility and, if applicable, the value of the related Digital Assets would be negatively impacted.

- (d) **Blockchain Environmental Risks:** Digital Assets may be hosted on various blockchains. The open-source structure of the software underlying most of these blockchains may be susceptible to developments by users or contributors that could damage these blockchain's reputation and could affect the utilization of the Digital Assets on such blockchains, and consequently, the utility and, if applicable, the value of such Digital Assets. Furthermore, an open-source project is not represented, maintained or monitored by an official organization or authority. The open-source nature of software underlying the blockchains hosting Digital Assets means that it may be difficult for the promoters of a blockchain project/platform and/or other contributors to maintain or develop such Digital Assets, and the such persons may not have adequate resources to address emerging issues or malicious programs that develop within the relevant blockchain adequately or in a timely manner. Third parties not affiliated with a blockchain project/platform may introduce weaknesses or bugs into the core infrastructure elements of the relevant blockchain and open-source code, which may negatively impact the storing or operation Digital Assets on such blockchain. Such events may result in a loss of trust in the security and operation of the underlying blockchains and a decline in user activity and could negatively impact the utility and, if applicable, the value of such Digital Assets.

The promoters of a blockchain project/platform may maintain some or all of the proceeds of the sale of the relevant Digital Asset in the form of cryptocurrencies. Whilst such promoters may take all reasonable measures to secure such cryptocurrency holdings against theft or malicious attacks, such attacks are endemic in the blockchain environment. Accordingly, there is the risk that such balances may be lost by reason of such attacks thereby reducing or eliminating the funds available for the development, maintenance and support of the relevant project/platform. Moreover, in the event that such promoters maintain any balances in the form of cryptocurrencies, the market for most cryptocurrencies fluctuate wildly. Accordingly, the value of such balances may decrease significantly or absolutely. In any of these circumstances the relevant project/platform, relying on such development, maintenance and support from the promoters, may fail and the utility and, if applicable, the value of the relevant Digital Asset may correspondingly be negatively impacted.

Many blockchain projects/platforms operate in a highly digital environment that is highly susceptible to digital theft attacks, phishing and malicious attacks at all times. Accordingly, in the event that the software for such project/platform is the subject to such attacks, the related Digital Assets held by purchasers may be lost in part or in full.

- (e) **No Secondary Market:** Certain Digital Assets may be issued by the promoters of a blockchain project/platform but with no secondary market in such Digital Assets becoming available or sufficiently available. Even if a secondary market develops for such Digital Assets, exchanges for such secondary market may be relatively new and subject to little or no regulatory oversight, making them more susceptible to fraud or manipulation. Furthermore, to the extent that third parties may ascribe an external value to a Digital Assets (e.g. as denominated in a cryptocurrency or fiat currency), such value may be extremely volatile and diminish to zero.
- (f) **Tax Treatment:** The tax characterization and consequences in relation to the purchase, holding and disposition of Digital Assets is uncertain and varies from jurisdiction to jurisdiction and the holding of Digital Assets by any person, directly or indirectly, may have unexpected tax consequences.
